

DOLLE CF36LM

ATTIC LADDER 92,5 X 70 CM - WITH 30 MM INSULATION

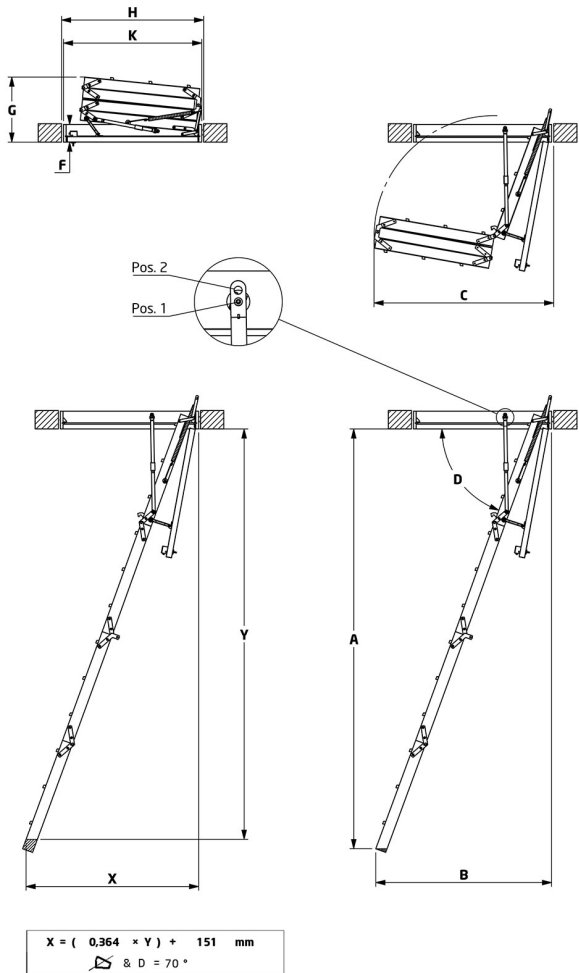

Dolle CF36LM attic ladder with 30 mm insulation = U-value 0,99 W/m_ C. ClickFix is a complete line of attic ladders based on the unique patented ClickFix technology. The entire product range is known by the low u-value and the quick and easy installation.

The low weight (approx. 25% less than traditional attic ladders) and the Click system make it possible for only 1 person to mount the ClickFix attic ladders. The insulation and the construction of the trapdoor reduces heat loss. Dolle CF36LM is delivered with non-slip treads for extra security and a wooden push/pull rod for easy operation of the attic ladder.
